MINI PROJECT:

Title : ONLINE GROCERY SHOPPING USNG JAVA.

Objective : To minimize the time that is consumed when purchase the groceries through online.

Description : Online grocery shopping is a convenient way for consumers to purchase groceries without need to physically visit a store. I design some pages like LoginPage,RegisterPage,homepage.When Login and registered the page that datas are stored in the h2 console.By using the h2 console we can analyze the customers details like phone number,name,address etc.. The Benefits of this project is consumers can explore different brands, Quality, Quantity and price points without limitations. This diversity allows shoppers to find exactly what they're looking for, often at competitive prices.
